

C O B A L T O - 1 7

TECHNICAL DATA

Cobalto - 17, the first Gin totally produced in the Douro owes its balance and freshness to the alliance of traditional production methods and the incorporation of six botanicals, designed to ensure the integrity of a classic Gin and the irreverence of a next generation Gin, with a fruity and seductive flavor.

Botanicals

Juniper, Peppermint, Verbena, Cardamom, Pear and *Tinta Amarela* grape variety

Alcohol Content

40% v/v at 20°C

Production Techniques

24 hour infusions and individual distillations of each botanical. Three filtrations. After bottling, it is aged for 17 days to ensure enhancement of the flavors.

Distilled in traditional stills, the entire bottling and labeling process is done by hand.
